PROFILE SUMMARY

Hello, I'm Akshay Patil, a Java developer with experience in Java backend development since November 2019. I have a strong understanding of Java programming concepts and have worked on various projects, including developing RESTful APIs and integrating with databases. My skills include proficiency in Java, Spring Boot, Hibernate, and SQL. I am a quick learner, a team player, and always strive to deliver high-quality code that meets the client's requirements. Looking forward to connecting with professionals in the industry and exploring new opportunities.

EDUCATION HISTORY

Graduation

Course	B.Tech/B.E.(Computers)
College	Sharadchandr Pawar college of engineering
Year of Passing	2019

WORK EXPERIENCE

Jan 2023 to Present

Software Developer at Advent Biztech Solutions

Projects : CMS and Insurance

Java Developer with expertise in designing and developing web applications using J2EE technologies, including microservices architecture. Skilled in Oracle database and SQL queries, excels in team collaboration and project deployment, contributing to the growth of organizations through his programming, designing, testing, and code review abilities. experience in microservices architecture further enhances his capability to create scalable, modular, and maintainable solutions that align with modern development practices and industry standards.
